

## AutoCAD 2007/2008 Advanced Quiz

The objective of the AutoCAD 2007/2008 Advanced Quiz is to test a user's knowledge on the concepts covered in the AutoCAD Advanced course. That course covers topics beyond the creation of a simple AutoCAD drawing.

Topics covered in the quiz include:

- Dynamic blocks
- Attributes
- XREFs
- Advanced plotting techniques
- Drawing standards and system setup
- Fields and tables
- Sheet sets
- Customizing the interface

Clients receive their results immediately upon completion of this quiz, indicating any training requirements. Quiz reports are also available at any time after the quiz is completed, and can be generated for groups of users as well as individuals. The quiz is composed of 50 multiple-choice questions.

### Operating Requirements:

- Internet Connection
- Required operating system: Windows or UNIX
