Eagle Point Software to Remain Focused on its Pinnacle Series

OWINGS MILLS, MD – November 7, 2016 – [Rand Worldwide](#) (OTCBB: RWWI), a global leader in providing technology solutions to organizations with engineering design and information technology requirements, announces that its [IMAGINiT Technologies](#) division has acquired the Autodesk subscription customer base of Eagle Point Software. As of today, IMAGINiT, an [Autodesk Platinum Partner](#), welcomes all former Eagle Point Autodesk subscription customers, providing them with access to IMAGINiT's wealth of Autodesk implementation, consulting and training expertise.

"As a result of Eagle Point's decision to focus more completely on growing their Pinnacle Series business, a unique opportunity arose to grow our base of subscriptions," says Larry Rychlak, president and CEO, IMAGINiT Technologies. "We are pleased to now welcome Eagle Point's customers who utilize the Autodesk products to our family. Our team will make sure that these customers continue to receive the outstanding service that they have received from Eagle Point in the past and to ensure a smooth transition to the IMAGINiT family. As IMAGINiT customers, they can look forward to enjoying the unique benefits offered by us including access to free installation support, free IMAGINiT Utilities, and the support of our expansive team of technical experts across the North American Autodesk channel."

"IMAGINiT Technologies was the exact right choice. Now, our vision of expanding the Pinnacle Series features will help customers improve their efficiency, quality and learning at an accelerated pace. Over the coming 12 months, Pinnacle Series customers will experience dramatic gains in workforce performance, technology adoption and return on Autodesk subscription investments."

As an Autodesk Platinum Partner with offices across North America, IMAGINiT provides subscribers with extensive benefits while still giving customers regional resources. Technical experts in architecture, engineering, construction and manufacturing provide software recommendation, implementation and consulting as well as contributing industry leading insights to IMAGINiT's [ProductivityNOW](#) knowledge base for subscribers to access and benefit from.
