IMAGINiT Technologies' Creates New Tools for Utilities for Autodesk Revit and Civil 3D

IMAGINiT Utilities Save Time, Reduce Rework and Automate Manual Tasks

OWINGS MILLS, MD — July 10, 2017 —Customers who have their Autodesk subscription with IMAGINiT Technologies now have access to the latest updates for the [IMAGINiT Utilities for Autodesk Revit 2018](#) and [IMAGINiT Utilities for Autodesk Civil 3D 2018](#). As of today, customers can immediately download these popular utilities from [Autodesk Platinum Partner](#) IMAGINiT, via the [ProductivityNOW Portal](#).

"Since first developing IMAGINiT Utilities for Revit over ten years ago, we've continually enhanced this exclusive offering as well as expanded it to include utilities for other Autodesk software, such as Civil 3D," says Bill Zavadil, senior vice president, IMAGINiT Professional Services. "Over 6,000 organizations in the US and Canada rely on utilities from IMAGINiT Technologies to reduce time consuming and redundant tasks which instead allows them to focus on high value activities."

New Tools in IMAGINiT Utilities for Revit

With more than 20 tools, IMAGINiT Utilities for Revit helps BIM Coordinators focus more on high-level design and less on time-consuming manual tasks such as element renumbering, parameter updating and view set up or cleanup. The newest tools in the offering include:

Legend View Creation: Automatically creates legend views for components used in the project.

Room Contents Import: Quickly brings all the required components for a given room into the Revit environment.
