Rand 3D Brings Comprehensive Suite of Product Lifecycle Management (PLM) Solutions to Product Innovation Congress 2016

Custom PLM Solutions Include In-Class and Online Training, Courseware, Documentation and Implementation Services

OWINGS MILLS, MD — November 7, 2016 — Rand Worldwide (OTCBB: RWWI), a global leader in providing technology solutions to organizations with engineering design and information technology requirements, today announces its Rand 3D division will share key Product Lifecycle Management (PLM) insights at the Product Innovation Congress. Rand 3D experts will be on hand to discuss PLM solutions from Dassault Systèmes as well as solutions from Rand 3D that include classroom and online PLM training, PLM courseware materials and custom documentation solutions. The conference will be held at the Monarch Beach Resort in Orange County, CA on November 17 and 18, 2016.

"Choosing a PLM platform is a transformative process that requires the perfect mix of technology, implementation expertise, adoption and documentation of the resulting new workflows for consistency," says Meghan Foster, director of sales for Rand 3D. "That's why Rand 3D is pleased to be at PI Congress 2016 sharing our experience of recommending technology, creating training programs, developing courseware and custom PLM documentation services that help organizations manage the entire PLM project as well as their CAD data and bill of materials."

Rand 3D's training, whether in-class or virtual, is designed to increase on-the-job productivity by identifying and addressing gaps in skills across the entire PLM team. Classes utilize a variety of learning styles and knowledge assessment tools and are led by the industry's foremost subject matter experts. Rand 3D has access to the highest quality training materials developed by ASCENT- Center for Technical Knowledge. ASCENT also works closely with Rand 3D to develop custom workflow documentation that enables the successful adoption of PLM solutions across unique customer environments.

As a certified Dassault Systèmes Partner, Rand 3D also offers the 3DExperience and the ENOVIA product suite in addition to software solutions for the CATIA, DELMIA, ENOVIA, and SIMULIA brands. Rand 3D is also a member of the Dassault Certified Education Partner Program, providing access to an extensive library of additional training materials and eLearning solutions for Dassault Systèmes software.
