

IMAGINiT Technologies Explores Business Challenges at Problem Solved Virtual Event

11 Presenters Across Three Industry Tracks Offer Critical Content for Engineers, Designers and Managers

FRAMINGHAM, MA – February 19, 2013 – [Rand Worldwide](#) (OTCBB: RWWI), a global leader in providing technology solutions to organizations with engineering design and information technology requirements, today announced its [IMAGINiT Technologies](#) division has opened registration for its complimentary [Problem Solved Virtual Event](#).

During the day long virtual event, attendees will learn about the complex operational challenges that our clients in the civil, architectural, building and manufacturing industry faced in the last year. IMAGINiT experts will then highlight ways in which our clients were able to mitigate these issues with solutions such as process improvement, systems integration or more efficient use of their design engineering tools. To learn more about this event, [view this short video](#).

"We're convinced the content will generate ideas and stimulate conversations in the virtual lounge because each track was developed from a list of our customers' toughest challenges over the past 12 months," said Bill Zavadil, senior vice president, worldwide services at IMAGINiT Technologies. "So we encourage managers and software users to kick off their year in high gear by learning how to navigate your industry's biggest pitfalls with experts who have already been there and solved it."

Dates and Times

North America

In North America this free educational and networking virtual event will be held on Wednesday, March 13, 2013 from 10:30 a.m. to 4:00 p.m. Eastern Standard Time and more details can be [found online](#).

Asia

In Asia, the event will be held March 14, 2013 from 8:30 am to 2:00 pm Singapore/Malaysia time. Registration and additional details can be [found online](#).

Australia

For Australian attendees the event will be held March 14 from 11:30 am to 5:00 pm Melbourne/Sydney time. Registration and additional details for these international sessions can also be [found online](#).

Valuable Insight for Engineers, Designers and Managers

Each session offers actionable strategies and tactics. The sessions focus on solutions beyond software and hone in on the processes that help make successful organizations run smoothly.

The line-up of [14 free and interactive presentations](#) includes:

- Future of BIM Output
- Take Full Advantage of the Cloud
- Upgrade Your Engineering Process
- Leveraging Design Data Downstream by Linking to ERP
- Relying on Model-Based Estimations
- Informing Design in BIM
- Autodesk Revit MEP Systems Analysis
- Meeting Aggressive BIM Goals
- Data Integration with Civil 3D
- Behind the Eight Ball with AutoCAD Civil 3D
- Complying with Government Agencies
- Inventor Best Practices: Get More from Your Tools
- Workload Balance with Remote Users
- Unlocking the Vault: Selecting Your Data Management Strategy

Registration

Although registration is free, pre-registration is required. The format of the [Problem Solved Virtual Event](#) allows participants to log in from anywhere. In addition to attending the sessions, participants are able to network with fellow attendees and ask IMAGINiT experts questions in the virtual lounge. For more information [watch this short video](#). To register, please visit imagineit.com/ProblemSolvedVE.

About IMAGINiT Technologies

[IMAGINiT Technologies](#), a division of [Rand Worldwide](#), advances the way architects and engineers design, develop, and manage projects. Customers of this leading professional services and technology company include organizations in the building, infrastructure, manufacturing and facilities management industries. *Fortune 500* and *Engineering News Record's* Top 100 organizations work with IMAGINiT Technologies to gain competitive advantages through expert technology consulting, implementation, training, and support services. As one of the world's largest integrators of Autodesk 3D design and engineering software, the team leverages unrivalled industry experience to design systems that accelerate innovation while improving project quality and profitability.
