Rand Worldwide Launches Rand 3D at COE 2013

Formerly Known as Rand Worldwide's 'Training Systems Division', Rand 3D provides training, support and sales of design engineering software

FRAMINGHAM, MA — April 22 , 2013 — Rand Worldwide (OTCBB: RWWI), a global leader in providing technology solutions to organizations with engineering design and information technology requirements, today announced it is rebranding its Training Systems Division to Rand 3D to offer a complete design engineering solution. In addition to providing training and support for CATIA, DELMIA, ENOVIA, 3DVIA and PLM Express and PTC Pro/ENGINEER and Creo software, this new division will also sell Dassault Systèmes' software in both Canada and the United States.

"Integrating our unrivalled expertise in training and support with selling Dassault software now allows our customers to have a seamless experience with one partner that will meet all their needs throughout the software lifecycle," says Chris Grossman, senior vice president of enterprise applications at Rand Worldwide. "We're glad to be leveraging our rich training services history with our experienced trainers and courseware developers that offer a variety of training options from virtual classes to custom on-site options."

Software Offering
As an established Solutions Partner with Dassault Systèmes and with a proven track record, Rand 3D offers customers the latest software releases and updates for software including: 3DVIA Composer, CATIA PLM Express, CATIA V5, CATIA V6, DELMIA PLM Express, DELMIA V6, ENOVIA V5 VPM, ENOVIA V6, and V6 PLM Express.

Training Expertise
Rand 3D offers a complete array of training services including: in-person classes, LIVE Online training, custom training as well as self-paced eLearning and knowledge assessments. Rand 3D's teaching faculty are dedicated, full-time employees certified in both instructional delivery and software use. These Subject Matter Experts inject real-world experiences into the equation whether they are teaching online, in one of more than 30 Training Centers across North America, or on-site at a customer location.

To ensure the richest educational experience possible, Rand 3D uses curriculum developed by ASCENT – Center for Technical Knowledge. The sole focus of ASCENT is to provide clients with the best training materials available for the industry's leading engineering software applications, including those from Dassault Systèmes and PTC.

ProductivityNOW Portal
Extending the rich learning experience beyond the classroom, Rand 3D also offers access to the ProductivityNOW portal, developed by ASCENT - Center for Technical Knowledge. This self-serve eLearning support knowledgebase offers Dassault Systèmes and PTC users 24/7 access to technical resources and eLearning. Content includes tips and techniques, video demonstrations, hands-on exercises, and a comprehensive repository of questions answered by Rand 3D technical experts.
